EGHOLM

Rotary/mulch mower 1000

- Park Ranger 2155

Standard equipment:

- Tilting for cleaning** The mower can tilt up and rest on two support wheels making cleaning easy.
- Stepless height adjustment** Cutting height can be infinitely adjusted via handle on the mower.
- Piano wheels** Piano wheels which move the cutter in line with the manoeuvring are equipped with heavy slide bearings in their wheel forks for durability.

Extra equipment (options):

- Large radiator cover** To avoid choking of the radiator grill while mowing dry grass in dusty surroundings, the large radiator cover can be fitted.
- Mulch mower kit** The rotary mower can be changed into a mulch mower with a cover placed inside the same mowing deck. Mulching creates fine trimmings, which supply the soil with natural nutrients and reduces the need of fertilisers.
- Collection mower (kit)** Rebuild the rotary mower to a collection mower. Collecting the grass trimmings ensures the most professional looking result and healthiest lawn. It is recommended to use the dedicated grass collector for this purpose. Please see separate data sheet for this attachment.
