

Rotary/mulch mower 1200

- Park Ranger 2155e

1280 mm

2850 mm

1350 mm
1987 mm

Standard equipment:

Tilting for cleaning	The mower can tilt up and rest on two support wheels making cleaning easy.
Stepless height adjustment	Cutting height can be infinitely adjusted via handle on the mower.
Piano wheels	Piano wheels which move the cutter in line with the manoeuvring are equipped with heavy slide bearings in their wheel forks for durability.
Lawn protection screens	The lawn protection screens protect both the blades and the lawn. The screens prevent larger sharp or hard objects from hitting the knives, thereby reducing wear of the knives. The screens also protect the lawn, as you avoid them running down into the lawn if the mower is lowered too much.

Extra equipment (options):

Mulch mower kit	The rotary mower can be changed into a mulch mower with a cover placed inside the same mowing deck. Mulching creates fine trimmings, which supply the soil with natural nutrients and reduces the need of fertilisers.
