

# Rotary/mulch mower 1500

- Park Ranger 2155e

## Standard equipment:

<b>Hydraulic tipping function</b>	Using the control handle, the cutter can be tipped into vertical position for easy cleaning and maintenance of the cutter.
<b>Hydraulic height adjustment</b>	The cutting height is adjustable using the hydraulic system of the machine.
<b>Mower blades</b>	Self-developed mower blades for optimal cutting results.
<b>Piano wheels</b>	Piano wheels which move the cutter in line with the manoeuvring are equipped with heavy slide bearings in their wheel forks for durability.
<b>Lawn protection screens</b>	The lawn protection screens protect both the blades and the lawn. The screens prevent larger sharp or hard objects from hitting the knives, thereby reducing wear of the knives. The screens also protect the lawn, as you avoid them running down into the lawn if the mower is lowered too much.

## Extra equipment (options):

<b>Mulch mower kit</b>	The rotary mower can be changed into a mulch mower with a new set of blades and a cover placed inside the same mowing deck. Mulching creates fine trimmings, which supply the soil with natural nutrients and reduces the need of fertilisers.
